Uimhir Thagarta Uathúil: DCC-C38-DRAFT-1635   **Údar:** Ray Cunningham
Stádas: Submitted
Submission: Additional targets to track

Comhairliúchán:
Draft Dublin City Development Plan 2022-2028

Observations:

Chapter 16: Monitoring and Implementation

Caibidil: Chapter 16: Monitoring and
Implementation

The city performance indicators are too narrow. Other indicators that should be tracked include:

- the total area of new pedestrianisation

- length of protected cycle lanes built

- number of on-street parking spaces in the DCC area

- Number of trees planted, and number of trees cut down. Average age of trees in the area. Number of on-street trees per area

- Number of Traveller accommodation places, and standard

- Number of public electric car charging points

- Land area of parks, and total area set aside for pollinators (native Irish plants, not planting for decoration)

- Number of vacant and derelict properties. Number of properties brought back into use

- Average size in m2 of new housing

- Participation in Living City Initiative schemes

- Level of biodiversity

- Number of inactive planning permissions
